

DESIGNATED SERVICE PROVIDERS (DSPS): WHY THEY MATTER

A Designated Service Provider or DSP is a hospital, pharmacy or medical professional that your scheme has a special fee arrangement with. This means that you, as a Spectramed member, enjoy preferential rates when making use of a DSP while also empowering you to make your benefits last longer and avoid out of pocket expenses as far as possible. Your DSP is also the perfect place to get all the treatment you need for a Prescribed Minimum Benefit (PMB) condition without being worried that you will be faced with a bill.

To make sure our members can easily access a DSP in their area, Spectramed has a wide network of providers that you can choose from:

DSP PHARMACIES

DSP HOSPITALS

Folateng

BETTER TOGETHER.
